## INSTRUCTIONS

After determining from the methods shown on the front of this form the amount of gross annual sales, commissions or other revenue on which the license fee is based, refer to attached rate and compute the amount of tax from the rate which applies to your business.

**Occupational License for a business operated the preceding year is deemed delinquent if application is not filed prior to March 1st of the year due. The license for a new business is deemed delinquent if application is not filed within forty days after date of commencement.**

LICENSES NOT PAID BEFORE THE DELINQUENT DATE, MARCH 1ST, BEAR INTEREST AND PENALTY AS FOLLOWS:

Interest — rate of 1% per month starting from January 1st.

Penalty — at rate of 5% per month starting from March 1st, but not to exceed 25%.

Anyone delinquent less than 3 months (March 1st - May 1) shall be charged a minimum fine of \$75.00 plus \$25.00 court costs in addition to interest and penalty fees.

Anyone delinquent more than 3 months shall be charged a maximum fine of \$250.00 plus \$25.00 court costs in addition to interest and penalty fees.

Multiple offenders shall be charged a maximum fine of \$250.00, plus \$25.00 court costs, for each day of operation of violation, in addition to interest and penalty fees.

**NEW BUSINESSES:** The following explains the methods to be used in determining the amount of license owed by businesses which were not in operation during the entire previous calendar year and those new businesses opened during the year:

- A. For businesses opened during previous calendar year, complete Line 2 on reverse side. When computing number of days in operation, include Sundays and Holidays.
- B. For businesses opened during current year for which license is to be issued, complete Line 3B on reverse side. If business operated for more than one-half month, the portion operated must be calculated as one month, if operated less than one-half month, disregard altogether.
- C. For businesses opened after June 30th of current year, complete Line 3B on reverse side. If gross revenue is more than one-half of the maximum amount covered by the minimum fee in the rate table which applies to your class of business, the tax due is the amount shown in the rate table. If gross revenue is less than one-half, the tax due is one-half of the amount shown in the rate table.
